AGAINST THE "HUCKLEBERRY" ROAD JOB. CONTROLLER MYERS SEVERELY CRITICISES THE PROPOSED INIQUITOUS MEASURE.

Albany, March 16 (Special).-Controller Myers to-day sent a letter to the senate severely criticising the "Huckleberry Railroad" bill, as the Union Railway Company is popularly known, whose members propose to gridiron the streets of the Annexed District of New-York with the tracks of a gigantic street railway system. The letter of Mr. Myers is given in full below :

In my opinion, Assembly Bill No. 21 is detrimental to the rights and interests of the city of New-York, because

First. That there may be a practically unrestrained and unlimited capitalization and bonded indebtedness of the corporation to be created under its provisions, which would have the effect of relieving the company from taxa-tion. This is in direct contravention of Section 46 of the General Stock Corporation Law (Chapter 564, Laws of 1890), which provides "in case of the increase or redution of the capital stock of a railroad corporation, the certificate shall have indorsed thereon the approval of the Board of Railroad Commissioners."

second. That if this corporation shall extend its tracks construct branches, such extensions or branches shall by subject to the previsions of Section 95 of the Gen-il Railroad Law (Chapter 505, Laws of 1800), which has the operation of such extensions or branches subthe first five years and 5 per cent thereafter. Such a privilege is absolutely unjustifiable when granted in perpetuity, as it is in this hill. Under no circumstances should the city be forever debarred from participating in the profits of what is sure to prove eventually a most

my opinion, Assembly Bill No. 21 is detrimental to the rights and interests of the taxpayers of the Tweptythird and Twenty-fourth wards, because it provides :

First. That the corporation to be formed under its pro-sions shall be exempt from the provisions of Section of the General Railroad Law, which provides that no under its control, to any other point thereon or any con-

These two provisions, giving the corporations named a practical monopoly of street auriace transportation in the Twenty-third and Twenty-fourth wards as well as the right to charge excessive rates of fare, would leave that district helpiose in the hands of a corporation accure from competition and deflant of public control.

I am reliably informed that the operation of new surface railroads in the Twenty-third and Twenty-fourth wards would prove immediately profitable; that severa applications have already been made in good faith to th applications have siready been marchises, subject to all the Board of Ardermen for such franchises, subject to all the provisions of the General Railroad Law, and that there exists no good cause for the granting of the extraordinary privileges provided for in this bill, in derogation of the

rights of the city of New-York.

I therefore respectfully make reply to the query in constusion of the Senate resolution by saying that, in my opinion, the bill in question, in its present form, ought not to become a law, Respectfully,

THE TELEPHONE BILL INTRODUCED.

REPERRED TO THE SENATE GENERAL LAWS COM MITTEE GREATLY TO SHEEHAN'S RAGE.

Albany, March 16 (Special).-The telephone com panies, which have been robbing the business men of New-York and Brooklyn by their outrageously high rates, have felt seeme in the protection which Tammany Hall has promised them in consequence of the payment to Richard Croker of large campaign sub-scriptions. It has been shown with great clearness that Tammany had made a bargain to prevent legisla tion when both Mr. Hagan, the Tammany Senator from the IXth Senate District, and Mr. Martin, the Assemblyman from the XVIIIth District, refused to introduce the bill which had been prepared by the Board of Trade and Transportation. Hagan and Martin both de the excuse that the bill did not suit them in all its particulars. Various attempts have been made to Democrats to introduce this bill. All these efforts have proved to be useless. The men to whom the bill has been submitted courteously went through the form of examining it, and all returned the same answer. It was left to a Republican Assemblymau, Majone, of Brooklyn, first to present the bill to the Legislature, and while he intends to make some amendments to it, he has courage enough at least to put the measure in a position where it could receive the official

consideration of the Assembly.

Senator Aspinali to-day received from Darwin R.

James, of Brooklyn, a letter asking him to
Introduce the bill in the Senate. Mr. James is the
secretary of the Board of Trade and Transportation, and he has taken an active interest in the struggle to reduce the telephone charges. Senator Aspinall knew

that if he introduced the bill, and Lieutenant-Governor committee that would sit down upon it hard and hold it throughout the rest of the session. The Republican members of the Senate have confidence in the honesty of General McMahon, the chairman of the General Laws Committee, and Senator Aspinall thought that in this committee his bill would have the fairest treatment.

Senator Parsons was in the chair when the bill was introduced to-day, and at the request of Mr. Aspinall he referred the bill to General McMahon's committee. Senator Cantor, the Tam-many leader, was on the alert in an instant, and he first asked that the bill be sent to his committee, that on finance. Inasmuch as it asked for no appropriation from the State, the shallowness of this request immediately was seen. Then he wanted it to go to the Committee on Miscellaneous Corporations. George W. Plunkitt is chairman of this committee, and is so thorough a Tammany man that there are no orders from Croker that he Mr. Aspinall moved to send the bill to the committee originally named, and his motion was About this time word as to what was going on reached Sheehan, who was in his private room. He assumed that Senator Parsons had referred the bill to General Laws on his own volition or on the advice of his own private secretary, who tells senators advice of his own private secretary, who tells Senators what to do when they are allowed to preside, and his rage was great. The language which he is said to have used with the Senator and the private secretary was far more forcible than decent or elegant. The General Laws Committee consists of Senators McMahon, Parker, Carter, Endres, Coggeshall and Smith. It is probable that Cantor will make an effort to take the bill away from this committee and send it to one which can be more easily controlled. The Republicans intend to get the bill out if they can and pass it. They expect that enough independent Democrats will vote with them to do it.

The bill received a manumous vote in the Senate. Assembly man Connelly's bill providing for transverse street railroads in Contral Fark and senator Cantor's bill establishing a State Board of Dentistry were passed.

THE HARLEM RIVER RAILROAD BRIDGE. A BILL PROVIDING FOR AN ELEVATED ROAD TO 10CTH ST. PRESENTED BY THE NEW

YORK CENTRAL'S COUNSEL.

Albany, March 16 (Special).-John M. Bowers, the representative of the New-York Central and Hudson River Raifroad Company, appeared here again to day before the Commerce and Navigation Committees of the Senate and the Assembly on the bill allowing the railroad company to raise the bridge across the Harlem River, and to raise the grade of the road in Park-ave, to meet the rise of the bridge. Mr. Bowers presented a bill which had been drawn by him in conformity with the suggestions which have been nade by Mayor Grant. The new bill authorizes the building of an elevated railroad structure from the river back to One-hundred-and sixth-st. This will cost the company \$750,000 more than would be expended under the original plan of building a viaduct; and the bill places this extra cost on the adjacent property, which will be benefited by the changed plan. Mr. Bowers told the members of the committees that it was immaterial to the company which bill was reported, and he asked that one of them be reported soon.

Senator Cantor asked for another week's delay, to allow Charles W. Dayton, who represents the property-owners, an opportunity to be heard. The property-owners think that this extra expense should be made a general charge upon the entire city. Action upon the bill was postponed until next week Wednesday.

Chapter 137—Amending Section 55 of the Code of Criminal Procedure, relating to accommodations for courts and officers (affecting New-York and Kings Counties).

THE GOVERNOR HELPS A BROOKLYN GANG. Albany, March 16 (Special).-Governor Flower has to-day shown that he is trying to follow in the foot steps of David B. Hill and "play to the galleries." He praised himself mightly for his courage in refusing to sign the Brooklyn Bridge bills, after the newspapers had exposed their many vicious features until their bad features had been changed. But he knew that the franchise which was asked for was such a valuable one that the corporation behind the bill would take it, and gladly, too, with the bill in almost any condi-tion. Therefore, it did not take any courage for him to compel a modification of the bill. But when he had the opportunity to show that he could be courageous without the stimulation of public attention he falled utterly. A notorious gang of Brooklyn freebooters for several years has been try ing to get the bill through providing for the extension of Second-ave. in that city. This is a \$5,000,000 job which is to earich a number of favorite contractors Various Republican Legislatures have de feated the project, but this year it was whipped through

Philadelphia, March 16.-The place of head proessor in political science in the new University thicago at a salary of \$7,000 a year has been offered to Professor Edmund J. James, of the Wharton School of Finance and Economy, University of Pennsylvania.

Backed up by a cash offer—the statements that are made by the proprietors of Doctor Sage's Catarrh Remedy. They say that their medicine will cure, perfectly and permanently, the worst case of Chronic Catarrh in the Head—that not only Catarrh itself, but all the troubles that come from it, and everything catarrhal in its nature, are cured by the mild, soothing, cleansing and healing properties of their remedy.

They can't say any more. Probably every medicine for Catarrh claims as much. But it's one thing to perform it. The proprietors of Dr. Sage's Remedy want to prove that they mean what they say. So they make this offer: If they can't cure your Catarrh, no matter how had your case or of how long standing, they'll pay you \$500 in cash. You're sure of the money or a cure, lan't such a medicine worth trying !
